

BUG REPORT: embedding external content via xrefs

Jan David Fischbach

Abstract

A small demo embedding external content via xref. The content should be present in web and pdf exports, however it appears only in web.

1. DIRECTLY WITH THE INLINE `` SYNTAX
2. PASSING THE REFERENCE TO THE FIGURE DIRECTIVE

Figure 1: A matplotlib image of the cars data from the myst guide

3. SAME FOR INTERNAL REFERENCE

Figure 2: This is a sine wave, from a different document in the same project
